Editor-in-chief

Madjid Tavana
La Salle University, Philadelphia, Pennsylvania, USA

• Professor and Distinguished Chair of the Business Systems and Analytics Department
• Honorary Professor at the University of Paderborn in Germany
• Distinguished Research Fellow at the Kennedy Space Center, the Johnson Space Center, the Naval Research Laboratory at Stennis Space Center, and the Air Force Research Laboratory
• Honored with the prestigious Space Act Award by NASA

Associate Editors

Mohsen Afsharian
Technische Universitat Carolo Wilhelmina zu Braunschweig, Braunschweig, Lower Saxony, Germany

Zhuming Bi
Purdue University Fort Wayne, Fort Wayne, Indiana, USA

Gregory Chamitoff (former NASA astronaut)
Texas A&M University, College Station, Texas, USA

Space Mission Planning & Operations (SMPO) publishes high quality, peer-reviewed papers, that is intended for space scientists, engineers, computer scientists, operations researchers, management scientists, information scientists, and technology managers. The journal sources theoretical, empirical, and analytical research, real-world applications and case studies in space science and business, and space science and technology.

Aims

Space Mission Planning & Operations (SMPO) publishes high quality, peer-reviewed papers, that is intended for space scientists, engineers, computer scientists, operations researchers, management scientists, information scientists, and technology managers. The journal sources theoretical, empirical, and analytical research, real-world applications and case studies in space science and business, and space science and technology.

Advantages of SMPO

- We adopt the publishing model in gold open access. All articles published by SMPO are made freely and permanently accessible online immediately from the date of publication.
- We provide authors with high-quality peer review reports to further improve the manuscript in a timely manner.
- The Article Processing Charge will be waived before March 31, 2023.
- All articles are published under the CC BY 4.0 Agreement, and the copyright of the articles belongs to the author.
- Multiple international promotion channels will be provided to increase the exposure of articles.

Journal Information and Statistics

Publication mode: Open Access
Frequency: Quarterly
Publisher: OAE Publishing Inc.

Scope of SMPO

- Aviation Safety
- Avionics Interface, Design, and Requirements
- Continuous Risk Management
- Cost-Effective Mission Operations
- End-of-Life Mission Disposal
- Flight Operation Segment and Control
- Ground Infrastructure Design
- Ground Systems Design and Requirements
- Hazards and Mitigation Management
- Human Spaceflight and Mission Design
- Intelligent Space Technologies
- Launch and Early Orbit, and In-Orbit Operations
- Launch Vehicle Control
- Life-Cycle Cost Analysis
- Lunar Base Mission Planning
- Manned and Unmanned Launch Vehicles
- Manned Mission Planning
- Mission Algorithm and Software Development
- Mission Complexities and Trade-off Analysis
- Mission Contingency Planning
- Mission Data Analytics
- Mission Data Receipt and Delivery
- ……, etc.
